SCHOOL BONDS NEWS NOTES FOR BERKELEY FROM HAYWARDS

Educators Will Meet Tomorrow and Discuss Issue.

BERKELEY, Feb. 18.—The Board of Education will meet tomorrow evening at which time the method of issuing bonds for the purchase of school property and the erection of buildings will probably be decided.

At present there is some dispute as to whether the bonds for the erection of a High School had better be issued on the district plan or in the form of municipal bonds by the town.

The district plan is much the simpler and less expensive and would place the entire control of the matter in the hands of the board of education. If municipal bonds are issued the entire matter will have to be subjected to the action of the town trustees.

The former method is much preferred by the school trustees, but a question has been raised as to the feasibility of a High School building to be erected.

WANT TRACKS SPARKLED.
The merchants along Shattuck avenue are getting up a petition asking the Southern Pacific Company to sprinkle the track along that part of Shattuck avenue. The trains coming down the long grade at that point cause a hurricane of dust and clouds of smoke which is not only annoying to the traffic but also causes a great deal of damage to the property of the merchants.

CHURCH NOTES.
Rev. J. R. Knapp occupied the pulpit of the Trinity Methodist Church yesterday morning, making the subject of his discourse, "An Intercourse of Sinners and Saints." The pastor of the church, preached the first of a series of sermons on the "Angels of the Church."

Professor Elster preached yesterday morning in a large audience in the Assembly Hall on the subject of "The Christian's Duty." The morning sermon was preached by Rev. J. L. Hays in the First Baptist Church. The subject of the evening sermon was "The Christian's Duty."

Miss Mary Lyon preached in the church of the Nazarene, her subject being "The Christian's Duty." The pastor of the church, preached the first of a series of sermons on the "Angels of the Church."

At the North Berkeley Congregational Church the pastor, Rev. J. L. Hays, preached the first of a series of sermons on the "Angels of the Church." The morning sermon was preached by Rev. J. L. Hays in the First Baptist Church. The subject of the evening sermon was "The Christian's Duty."

MONDAY, FEBRUARY 20, 1900.

Brilliant day for the exhibition that the human race is having. That may be, but it is only a day in a life, so it does not matter to us after all.

An interesting race track is said to have been opened on the other day. It was probably through the vision of the many who from the hat end of a club.

The San Francisco Grand Jury has decided to take a hand in the Craven-Pair litigation. Of course, the grand jury cannot already without taking chances of that description.

Two more "Sundays" this week. For Thursday next is Washington's birthday. The father of his country deserves a holiday for the legacy of an annual holiday be bequeathed to us.

Loss of Confederate bills are said to be in circulation here. The news should be suppressed as much as possible, though, for what will the rest of the country think of us if they hear that we don't know money when we see it.

An attempt to create a corner in eggs in Chicago has resulted in the collection of 222,000 specimens of hen fraud. No wonder it was suggested some time ago that the American hen should support the eagle as the national bird. Just look at the lot of double-yolgers that they lay out presents for instance.

Senator Clark now admits that his election came back, and says that it cost him over \$100,000 to win the State of Montana from the corrupting influence of Maesens Italy. The Senator is to be congratulated upon his ingenious defense, for it now gives him an opportunity to pose with a halo around his head as a reformer.

The closing down of J. J. O'Brien's big store across the bay will be regretted by all the old-timers, for the establishment was one of the links with the early history and growth of the metropolis. It is significant how conditions change when it is shown that from a business of a million a year the house at last reached a point where it could not pay its running expenses—this, too, despite the fact that it remained under practically the same management all the time.

NEARING AN END.

To those who are closely watching the shifting of sands and the movements of the participants in the great war drama in South Africa it is becoming apparent that the end is nearer than most people imagine. For since the arrival in Africa of Lord Roberts the operations have been conducted upon a decided basis, and the fact that as soon as he got to the front he put his troops into action all along the line shows that victory as well as aggressiveness is to mark his campaign.

There is one good feature about the war, and that is that after the decisive battles are fought, peace will be proclaimed upon a permanent basis. The Boers will never dominate in guerrilla, for their homes and all that is dear to them are on the broad veldts, where they are now fighting, and no matter which side gets the advantage of the treaty of peace that sooner or later will come, nothing is surer than that as soon as the hostilities are ended they will lay down the sword and turn to the plowshare again.

There should be no regrets, therefore, that Lord Roberts is forcing the fighting in the manner now in evidence, for as the end cannot be brought about without decisive combat the quicker it occurs the better. In addition to the men who are succumbing to wounds received in actual battle, scores are being stricken down daily on each side by disease, and a speedy termination of the war means the saving of hundreds of lives in this regard. The fewer the battle wages, therefore, the better it will be, and with out wishing harm to either side, the rest of the world should receive with satisfaction the news that Cronje and Kitchener, Buller and Joubert have taken their contending armies into a supreme conflict that will end the unhappy strife that is drenching the soil of the South African steppes with the life blood of brave men who are fighting each other not for any personal reasons, but merely to support the political theories and ends of their respective governments.

PROMISING FOR CALIFORNIA.

The gigantic task of making America's exhibit for the Paris Exposition worthy of the position which this country occupies in the world of industry and trade, is now practically complete. Commissioner General Ferdinand W. Peck, who has been in personal charge of the work of the organization, has started for Paris to assume direction of affairs at that end. Mr. Peck declares that the result of the present efforts to show to the world what American industry, manufacturing and other lines of productive energy are capable of will place us in the front rank of exhibitors. Over 7,500 firms, individuals and corporations have bent their best efforts toward adding in the great work of rendering the American display the most complete that has ever been made in the history of the country.

In this grand panorama of the nation's commercial, industrial, horticultural and other resources, California will occupy a foremost position owing to the varied and extensive field which its exhibit will cover. This State was most liberal in providing the funds required in the gathering and marshaling of attractions and through the systematic and careful efforts of the Commissioners our exhibit will be worthy of the great interests of the commonwealth. In addition to the State exhibit, the Southern Pacific Company has also prepared a display, which, under the direction of W. H. Mills, has been collected from all parts of the State. With these combined, California cannot fail to attract more than the usual share of attention from the millions who will visit the great show on the banks of the Seine.

The State Commission has already received its headquarters in Paris, where it is now engaged in the work of grouping and arranging the display. There will not be an avenue of industry unrepresented, and our vast viticultural, agricultural and horticultural resources will fascinate all to these the mining exhibit, the product of the forest, quarry, coal, river and lake and they will blend into one harmonious whole that will scarcely find its equal in variety and scope in any of the other displays presented at this greatest of all exhibitions of modern times.

The benefits that California will receive from her display will be enormous, for in addition to its attractiveness as a show feature, substantial results will come in the nature of demand for such products as are marketable in the Old World. There is already an ever-increasing demand for our wines, and other exports of rank will undoubtedly be opened up as a result of the comparisons that will be made in our favor with the displays of other countries. The name of California is already a household word in the markets of foreign commerce and those not yet dealing with us will naturally take advantage of the opportunities at Paris to see whether or not we reach their anticipated standard. As instead of having anything to fear in that regard it is certain that an inspection of our products and resources will lead to a desire to deal with us, it can be seen what great possibilities are in store for us as a result of the approaching international show.

The satisfaction of knowing that we are fully and properly represented there should be good news to the property owners of the State, for it insures a bonanza return for the comparatively small sum that is being paid out of the public funds for the maintenance of our display.

It makes Sunday doubly pleasant to read in the morning papers dispatches from New York stating that "a blinding snowstorm is raging, ten inches of snow having fallen by midnight," and then to look out of the window and see the sun shining, roses in full bloom in outdoor gardens, men walking around without overcoats and women going to and from church in practically summer attire, having discarded all sorts of wraps. The trouble with most of us here is that we don't properly appreciate what we have got. If we did there would never be any occasion to have to stir up local patriotism.

A rainstorm is said to be heading this way from the north. Let it come, for we have had no use for rain since it fell last night. The roadways need a wetting down and out in the country a good stiff down-pour would give everything a freshening up that it needs. The weather couldn't be better this season if it were made to order.

No one can question the position of City Clerk Leland in the bond propositions. In addition to being a staunch advocate of the municipal securities, he has now taken a stand as a supporter of the Craven-Pair matrimonial bond. Constancy is a jewel.

Several lightnings are to be established along the Alaskan coast. The positions as keepers are not likely to be in great demand in view of the fact that a slight in that part of the world lasts about five months.

Among the advices from Ladysmith it is stated that a case of dysentery sold there the other day for \$15—about \$5.00. They are evidently in high spirits there, despite the fact that General Buller is unable to reach them.

UTILIZE THE CACTUS.

While the paper trust is shedding crocodile tears over its inability to obtain wood pulp in sufficient quantity and at a low enough price to enable it to reduce its present oppressive charges, it might be well to direct its attention to the Mojave desert, where abounds the cactus which has been declared to be the very best paper making material. A few years ago an experiment was made in Antelope valley as to the application of cactus fibre for the manufacture of paper, and it resulted in great success. The reason it did not come into general use was ascribed at the time to the plentiful supply of wood pulp which it was declared could be had for almost nothing, an additional objection that was raised being that the freight charges on the fibre were excessive.

As the first of these objections is now said to have disappeared, there certainly is no reason why the other one cannot be met by establishing a rail line to the desert, and by that means being able to ship the manufactured article itself. The supply of cactus is practically unlimited, but there is little fear that it will be put to such a use, for the trust is simply seeking excuses for the maintenance of its overcharges instead of endeavoring to put back the rates upon their old and reasonable basis.

Senator McHenry of Louisiana is opposed to the retention of the Philippines on the ground that the cheap labor of the group will be brought in competition with the higher wage workers of this country. As but a day or two have passed since another Democratic statesman gave as his reasons for opposing the admission of the Philippines as a lazy, shiftless lot whom the government would be compelled to support, it can be seen that the ideas of the minority on the expansion issue are about as varied and fluctuating as they are on the monetary question.

In the list of Mayor Phelan's appointments appears an individual who is given a salary of \$300 a month as "farmer at the Alms House." It is to be presumed that the liberality of his pay is not so much for the agricultural work he performs as for the brain fog required to locate just where his services are to be applied.

The burglar who has been surreptitiously removing the property of the good people of San Leandro proves to be a 12-year-old girl. As she confesses her delinquencies and falls to ascribe them to an attack of kleptomania, it is evident that her education has been greatly neglected.

LODGE MEMBERS WILL HOLD A CELEBRATION.

The following circular has been sent to lodge members:
"Oakland, Cal., Feb. 17, 1900. P. P. XXXV.
Dear Sir and Brother:—The Lodge in District No. 5 of which your lodge forms a part contemplates holding a 25th Anniversary celebration March 2nd, 1900. It is desired that a number of two or more lodges, would be of practical benefit to the order and membership by holding a similar celebration. Such a celebration, if held on Wednesday evening, February 22nd, in the building at the corner of Twelfth and Franklin streets.
The speakers have been secured to speak on different topics, and we earnestly urge you to be there and get acquainted with one another and hear something of interest.

ASSESSOR'S OFFICE BEING REMODELED.

County Assessor Henry D. Dalton is having his office remodeled. A door is being cut through the northwest corner of his office. This will lead into Mr. Dalton's private office, which will be moved from its present location. A counter will run across the south end of the office, over which the general business will be transacted. The comptroller will have a glass elevator in which to take his goods. The cupboards, which have been beaten once during the last fourteen years, have been lifted, and will be cleaned.

HINDU ARRANGANCE.
I was having my lesson in Hindustani from my high-caste mistress, when I employed on last evening in India, who declared with great bitterness of the arrangement of Europeans. Presently, wishing to give some orders to my low-caste sweepers about my dogs, I asked the mistress to interpret for me, and, among other things, to hand the sweepers two rupees, and to give my directions as to certain purchases. Instead of placing the money in the mistress's hand, she handed it to me on the ground, and the sweepers quite contentedly gathered up the coins, saluted respectfully and withdrew. I asked the mistress how it was that he, who resembled the arrangement of Europeans so much, was so insulting to his behavior to the poor sweepers, and he explained that the latter quite and respect their religious positions, and did not expect a high-caste man to run any risk of touching him, well knowing the penalty of it, and that some purification which would be thereby equal to a—Chamber's Journal.

345 new patterns American cottons Foreign novelties

The season for selling printed cottons used to begin with the first warm weather, or when the heat of midsummer was brought to mind by a few lazy spring days. Then people grew wiser and began to get ready when the weather was bracing—when summer came and hot, stuffy, sultry days were the rule, the pest of dressmaking was over and wardrobes were ready for Old So's attacks. So the best time to choose is now—variety is greater, and that best of dressmaking times, Lent, is just ahead.

NURSERY FOR LITTLE CHILDREN OF POOR.
The ladies of the Associated Charities have evolved a plan by which they hope to improve the condition of the children of the poor who are kept at home from school to care for the younger members of the family.
A nursery for the little ones is to be established, and in this work the ladies hope to do away with the peddling character of the last meeting of the Associated Charities Council the following ladies were appointed a committee to look after the matter: Miss Anna Whitney, Miss Maud Check, Miss Alice McChesney, Miss N. W. Pendleton and Miss Alice Oxborn. This committee will go around the school department as the teachers are well informed as to the reasons for children staying away from school. On the report of this committee will be determined the size of the quarters to be secured for the work.

PASTOR COYLE ON MYSTERY.

Delivers a Strong Sermon at Presbyterian Church.

At the First Presbyterian Church yesterday morning Dr. Coyle preached a sermon on the text, "God Was Manifested in the Flesh," 1 Timothy, III, 16.

"This is said to be a great mystery, and it certainly is," said Dr. Coyle. "Some people reject the Bible, and Christianity altogether because there is so much that cannot be explained. If they could see into every depth and see every height, they would accept the Christian religion, but they refuse to embrace what they cannot understand. The folly of the position has often been pointed out. There are a thousand mysteries in our minds and bodies, and in all the operations of nature around us, and if we refused to accept these mysteries we could do nothing at all."

"Explain how it is that the food you eat is converted into blood and brain and brawn and brain tissue; explain how the mind thinks, how the senses function, how the soul balances itself in the world without the movement of a wire. Explain the tides and all the wonders of light and chemistry. Explain that little boy of yours, or the beatings of your own heart. Make as simple a thing as a blade of grass or a common ant and see how far you can get without running up against a mystery."

"If a man refused to eat bread, or to use his ears, or to sow his seed, or to take

That small ache or pain or weakness is the "ill wind" that directs your attention to the necessity of purifying your blood by taking Hood's Sarsaparilla. Then your whole body receives good, for the purified blood goes tingling to every organ. It is the great remedy for all ages and both sexes.

Dyspepsia — "Complicated liver and kidney trouble. I suffered for years from dyspepsia, with severe pains. Hood's Sarsaparilla made me strong and hearty." F. B. Emerson, Auburn, Me.

attitudes of this manifestation in the flesh.

First—A God that heals the body. Second—A God who associates with sinners. Under this head he called attention to Christ's eating and associating with publicans and sinners and said, "I am poor, publican, or some poor, degraded Magdalene, moved by a longing to lead a better life, wandering about in the world, there are scores of people eating themselves Christians who give them the cold shoulder. Get away from them. Sit with them at the same table. Nay, verify, this would seem to do that. But the Savior did it. Our God did it. Alas that Pharisees should be so stupid as to refuse to help a poor sinner, not to encourage him to climb back to push him back into the mire from which he wandered. A free Christian people want their minister to preach the Gospel, they must have it pure; they are great sinners, for the genuine article; and when he preaches it they too often make it of no effect by the utter lack of gospel warmth and sympathy and forgiveness they manifest toward prodigals who are trying to get home to the Savior."

Third—A God of judgment. "PICK—An ever present friend."

NO STIR OVER MACRUM'S TALE

LONDON, Feb. 19.—No action has been taken by the British government in regard to the allegations made by Charles E. Macrum, the former United States Consul at Pretoria, that Mr. Joseph H. Choate, the United States Ambassador here, received instructions to make inquiries in connection with the matter. British officials declare that the extremely improbable that consular letters were opened at Durban as alleged by Mr. Macrum.

The cables rumors that Mr. Choate might be recalled in order to show the United States government's resentment against the treatment received by Consul Macrum at the hands of the British officials, declared at the United States embassy to be utterly ridiculous.

MAY BE SHOT AS A TRAITOR.

Associated Press Dispatches by The Tribune's Special London Wire.
LONDON, Feb. 19.—John O'Donnell and Major John McBride, the latter commanding the Irish brigade in South Africa, were today ordered to sit the court-martial of the House of Commons for South Africa, ordered by the resolution October 26, 1918, of Michael Davitt, Irish Nationalist, as a protest against the war.

The House this afternoon declared that if Major McBride is justified for election to Parliament he is also liable to be shot as a traitor, as soon as he is shot by the British soldiers, he is liable for election to the House of Commons.

THE WHOLE SECRET.

Of the Remarkable Success of a Remedy For Indigestion and Stomach Troubles.

A new remedy which may revolutionize the treatment of stomach troubles has been placed before the public and bears the endorsement of many leading physicians and scientific men.

This preparation is not a wonderful discovery nor yet a secret patent medicine. It is a simple, natural, and effective remedy for indigestion, dyspepsia, indigestion and stomach troubles, with which nine-tenths of our population are more or less afflicted. It is a simple, natural, and effective remedy for indigestion, dyspepsia, indigestion and stomach troubles, with which nine-tenths of our population are more or less afflicted.

Many interesting experiments made with these tablets show that they possess remarkable digestive power, one grain of the active principle in one of Stuart's Dyspepsia Tablets will digest 3,000 grains of lean meat, eggs, oatmeal or similar wholesome food.

Stuart's Tablets do not act upon the bowels, they do not cause constipation, they simply irritate and inflame the intestines, without having any effect whatever in curing the indigestion.

If the stomach can be restored to its normal condition, the work of digestion is very soon recovered its normal vigor, as no origin is so much abused and overworked as the stomach. This is the secret, and whole secret of the remarkable success of Stuart's Dyspepsia Tablets. A remedy practically unknown for years, and now the most popular, safest and most widely sold of any treatment for stomach weakness.

This success has been secured entirely upon its merit as a digestive, pure and simple; because there can be no stomach trouble if the food is properly digested. Stuart's Dyspepsia Tablets act directly upon the food eaten, digesting it completely so that it can be assimilated into blood, nerve and tissue.

Every drop of every bone, nerve and tissue in the body can be renewed in but one way, and that is from wholesome food properly digested. There is no other way, and that is the secret. It can purify the blood, or supply new tissue and strong nerves is ridiculous, and on a weak stomach which refuses to digest food can be made to do so, by irritating and inflaming the bowels with pills and cathartics.

Stuart's Dyspepsia Tablets cure dyspepsia, water brash, sour stomach, catarrh of the stomach, indigestion, flatulence, because they furnish the digestive power which is the one thing that weak stomach lacks, and which is the one thing that is needed to attempt to assist it by the use of "tonics," "pills" and cathartics, and have absolutely no digestive power and do not irritate the bowels.

The regular use of one or two of Stuart's Dyspepsia Tablets, after meals, will demonstrate their merit and efficiency better than any other remedy. They are sold by Druggists everywhere and a little booklet on cause and cure of stomach trouble will be mailed free by enclosing P. A. Stuart Co., Marshall, Mich.

NEW ORGANIZATION FOR THE RAILROAD EMPLOYEES.

RAILROAD WILL

ADVANCE \$36,000

A circular issued by President Collins P.

Harrington of the Southern Pacific Company this week has created quite a stir in railroad circles. It is a circular that a relief fund will be established for the benefit of all the employees of the company. This department is to be an insurance fund, and the insurance of all of the employees of the company. The circular reads as follows: "The Southern Pacific Company, Executive Office, 2211 Broadway, New York, February 19, 1920. On March 1, 1900, a department of the company's service to be established as the relief fund, will be established and placed in an executive charge of Mr. A. P. Hess, as Superintendent, with headquarters at San Francisco, California. Such directions as may be issued by the company are to be complied with, subject to the control of an advisory committee composed of representatives of the employees of the company."

"The object of this department is the establishment and management of a fund to be used for the relief of the employees of the company who are injured or disabled by accident or disease, and who are unable to support their families. The fund is to be established and placed in an executive charge of Mr. A. P. Hess, as Superintendent, with headquarters at San Francisco, California. Such directions as may be issued by the company are to be complied with, subject to the control of an advisory committee composed of representatives of the employees of the company."

WATER BATTLE.

A number of employees at the machine shops engaged in a spirited water battle Friday afternoon. The water was thrown from a hose and a duck in the bay with a stone. There was immediately a scuffle. Four or five got into each boat and began to race toward the piers. The two boats had not proceeded very far when the occupants of each began to splash water at the others and keep them from winning the race and before it was over all of the members of the parties had been thoroughly drenched. In the meantime the duck was being paddled out with the life. The boys returned to their work in good spirits. Those who were in the boats were Tom Davidson, Roy Abernathy, Gus Nelson, Charles Porter, Jack Shedd, Al Lightner, R. B. Felton, Al Anderson and "Max."

WORK ON THE POSTOFFICE WILL BE RUSHED.

Congressman Metcalf Looking After Oakland's Interest.

Plans to Be Drawn and Bids Are Soon to be Received.

(Special to the Tribune.)

WASHINGTON, Feb. 19.—Your correspondent called today at the Treasury Department and was surprised to find that no report has been made as yet on the Oakland postoffice site title.

I understood Mr. Metcalf has written to the Board of Trade and also to the Merchants' Exchange calling their attention to this fact and asking them to see that a report is forwarded without any further delay.

As soon as the title is settled the Treasury Department will take hold of the plans and will be in position to advertise for bids in about two months after they start in on the plans.

Mr. Metcalf wants to rush matters at this end but it is impossible to do any thing until the title is first settled.

[The United States District Attorney in San Francisco has passed on the deeds and declared the title to be valid. The property has been transferred to the Government and the deeds are now on the way to Washington. There is every indication that the postoffice work will be rushed.]

WARDEN PAGE

FIGHTS WITH A MANIAC

Fellow Tried to Murder His Keeper at the Hospital.

Stewart Borchart Arrives in Nick of Time and Gives Assistance.

James Page, warden of the insane ward at the Receiving Hospital, had a dramatic fight with a maniac who tried to murder him.

The maniac was a white man, about 35 years of age, and was dressed in a white shirt and trousers. He was armed with a knife and a pistol.

Page, who is a powerful man, says he would have been able to handle the patient alone, but he was taken by surprise by the sudden attack. He had not expected violence from the man, as he had hitherto been very quiet.

A Dishwasher's Woes.

John Mifflin, a dishwasher, feels that he is a much abused man. He was employed at a Twelfth-street restaurant and told to appear every day at 10 o'clock to go to work.

He was busy kindling a fire in the range, when the cook arrived, and the latter ordered him from the place. Mifflin protested, but the cook refused to give him a thrashing in the approved Saxonian manner. The cook, who would never to another name than John Doe, was arrested for battery.

LIVELY MAIDS TAKEN TO JAIL BY POLICEMAN.

Chorus Girls Rode Bicycles on the Sidewalk.

Pleaded With the Police But Only Money Counts in Oakland.

That chorus girls have no more privacy than any one else was demonstrated yesterday when the Twelfth-street man for molesting the bicyclists.

The girls, with several other members of the company, had come to Oakland for a day's ride and the police were returning from a run out the San Francisco road when they met the Twelfth-street man on the pavement when passing a police-

man. "Oakland is a joy town, anyhow," said the chorus girl. "I'll never wheel here any more."

IN FIELD OF UNION LABOR

Interesting Notes About the Men Who Work.

The attempt to organize a Federated Trades Council in this city is beginning to materialize, and a meeting will probably be called some time during the next few days.

Two of the trades which are expected to be made to organize are the electricians and the barbers. Both of these trades have had along unions in the past, but are entirely disorganized now.

TRADE COUNCIL.

The Oakland Building Trades Council will meet this evening in Becker's Hall. It is expected that the Trades Council will be organized.

PLUMBERS.

A delegation from the San Francisco union visited the plumbers at their meeting last Thursday night. The union men and Oakland unions are taking of a planing an agreement which will govern the actions of their members while working in the jurisdiction of the other union.

Considerable friction has been caused in the past by Oakland plumbers working in San Francisco. The union men in that city are getting 1 a day. As the Oakland plumbers receive only \$3 a day contractors on this side of the bay are not willing to employ them.

CARPENTERS.

The Carpenters' Union received seven new members at its meeting last Thursday evening. Four applications for membership were received, to be acted upon at the next meeting.

BRICKLAYERS.

At the meeting of the Bricklayers' Association last Wednesday evening E. J. Brandon, president of the San Francisco union, was present and addressed the members.

PLASTERERS.

The Plasterers' Union will meet tomorrow evening, at which time two invitations are expected to take place. The union is arranging for a ball to be given some time in March.

GOVERNOR GAGE MAKES REPLY TO FALSE CHARGES.

Executive Department, State of California, Sacramento, State Capitol, Feb. 15, 1899—Shortly before the convening of the extra session you called my attention to an article published in the Examiner, headed "The Governor's Queer Figures," and also a subsequent array of figures published in said paper on January 11, 1899, accompanied by a beautiful caricature, and asked what I had to say, if anything, in regard to these matters. I did not have the time then to go over the subject with you, but I avail myself of this, my earliest opportunity, to do so.

In reply to that article of the Examiner upon the figures he published in my letter referred to in the Examiner, and which was an answer mailed in reply to the North Central Improvement Company's petition requesting a call for an extra session, I have this to say:

The Examiner's idea about figures is not very important, for it is largely a guess. You will remember that it made figures about myself some time ago—prior to the November election in 1893. It gave figures to show that I would be defeated by a majority of 25,000. Instead of the Examiner figures proving correct, the majority was the other way—I received a plurality of 25,000.

The Examiner's figures were wrong about my prior election, and I observe from his recent statement on finances that there has not been any considerable improvement in his intelligence and arithmetic.

Along time ago somebody said: "There are none so blind as those who won't see." This, perhaps, is the case with the gentleman who writes the glaring headlines of the article referred to: "Governor Gage's Queer Figures."

The figures are not queer; they are absolutely correct. But the understanding of the gentleman who wrote the article is degraded—that's all.

The following answers from the Examiner's first intelligence:

"Governor Gage's Queer Figures. In Governor Gage's recent letter to Henry P. Sonntag he gives some astonishing figures by way of proof that he has saved money to the State."

"We quote the Governor's words: 'The general and special appropriation bills during the first two years of my able and honorable predecessor's term amounted to more than \$2,000,000, whereas these appropriations under the first two years of my official term are less than \$2,000,000.'"

"Where does Governor Gage get his figures?"

After quoting from my letter the items from the general and special appropriation bills during the first two years of my honorable predecessor's term, and the same items under the first two years of my official term, it exclaims:

"Now, if the appropriation for the first two years of Mr. Gage's term amounts to less than \$2,000,000, how does it come that the taxpayers pay \$2,000,000 for the same period?"

Thus you see the lack of knowledge on the part of the Examiner. Nobody who is conversant with the affairs of the State imagines that the total expense of running the government is included within the general and special appropriation bills.

The Examiner, not having sufficient familiarity with the subject, has been ranting about "Gage's Queer Figures."

The difficulty does not arise from Gage's figures, but springs from the ignorance of the Examiner in its struggle to comprehend accurate figures.

The comparisons made by "Mr. Gage's figures" related to the matter of general and special appropriation bills only—financial subjects liable to review and veto by the Governor. The other expenses of the State are regulated in the general appropriation bill, and there are certain items within the general appropriation bill which are not the subject of review or veto.

Now, instead of this being a case where Mr. Gage's "statement" assuredly was for an explanation, it is an attempt to mislead the public by a misrepresentation of the facts.

The figures given by me in my letter to Mr. Henry P. Sonntag and quoted in the article of the Examiner, and referred to as "astonishing figures," are correct in detail, and so well known are they to those conversant with the affairs of the State that it is simply a case requiring an apology from those who misunderstood them.

TWO WOMEN BATTLE WITH INSANE MAN.

Merchant Alexander is Insane and Has to Be Restrained.

Wanted to Kill the Two Young Ladies at His Home.

George W. Alexander, a member of the hardware firm of O'Brien & Alexander of San Francisco, became violently insane last evening at his home, 120 Commercial street, and attempted to kill his wife and Miss M. McKee, who had been visiting him for several days.

His dementia was sudden and unexpected. For about two months Mr. Alexander had been confined to his bed, recovering from an attack of apoplexy. Until yesterday afternoon the patient had shown no symptoms of mental derangement. It was supposed that his illness had been removed from his system, as he was regaining strength rapidly.

About 1 o'clock yesterday afternoon, while Mrs. Alexander and Miss McKee were in attendance upon him, the patient suddenly leaped from his bed and running to the kitchen seized a large knife. The woman, terrified by his mad action, changed in the patient and immediately rang for Dr. W. D. Hamilton, who had been treating the invalid. Until the physician arrived the patient was in constant danger to his own wife and it was as much as the woman could do to keep out of the way of his madman's onslaught. When the physician arrived Alexander was restrained by force and the police telephoned for. When the latter arrived they found Alexander in a room upon the floor stretching to a salarman. Alexander is about 50 years of age.

For a number of years Mr. Alexander has been subject to apoplectic attacks, and this is supposed to have been the cause of his mental breakdown.

AN EASTERN JOURNAL SCORES THE PAPER TRUST.

The Pennsylvania State Editorial Association, at its annual meeting in Harrisburg yesterday, dealt with the question of trusts in the press. This association is composed of editors and publishers of all parties, avowed, as a rule, all discussion of political questions, but the question of dealing with trusts was a subject of discussion.

The association, after discussing the question, adopted the following resolutions:

Resolved, by the Pennsylvania State Editorial Association, that no trust should be fostered by legislation, such as tariff duties, or other work that it is impossible to resist, or to which the public interest is opposed.

CARTER'S LITTLE LIVER PILLS.

FOR HEADACHE. FOR BRUISES. FOR COLIC. FOR CONSTIPATION. FOR BILIOUSNESS. FOR THE COMPLEXION.

CURE SICK HEADACHE.

The simple explanation of remedying the daily headache is that it is a sign of a diseased liver. The liver is the largest organ in the body and it is the seat of the blood. If the liver is diseased, the blood is impure and the body is affected.
